Approved For Release 2001/03/22 : CIA-RDP78-05252A000300070029-8

25X1A ATTN Chief. Technical Accounting Staff

22 November 1955

Acting Chief, Finance Division 25X1A

Proposed Travel Regulations, Shipment and Storage of Household Goods and Personal Effects

25X1A

1. The following comments are submitted for your consideration regarding proposed regulation copy of which is attached:

Paragraph 2 - It is suggested that a definition of "unavoidable demurrage" be added.

Paragraph 3 g(4) - "Authorizing Official" should be inserted in place of the designation "official".

Paragraph 4 b - This paragraph should indicate that negligence of the employee to arrange for removing his personal effects, for which Transportation Company would charge extra demurrage, would be an expense payable by the employee.

Paragraph 5 a(1) - Informal information received in this office indicates that State Department no longer allows the shipment of wines, liquors and possibly food stuffs to (?) and from emergency areas. Official State Department regulations do not confirm this understanding, however, you may wish to investigate this matter further.
